HERSETH

SANDLIN STATEMENT ON H.R.2454

June 26, 2009, Washington DC –

The

U.

Herseth

Sandlin made the following comments following her

“I believe it’s imperative for Congress to address climate

“However, given the complexity both of the climate change problem

“While I was not able to support this bill, it has already

“Important and common sense improvements have been made that

“I am also pleased that the bill corrects the controversial

“However, while I am supportive of many of the changes made

“I have heard from several utilities serving South Dakota,

“Additionally, the bill does not adequately fix the flawed definition

“Underlying my specific policy concerns are serious concerns about
